Translator's Notes: -----

¹ Student "Status" refers to the academic standing of the student. *R*, which stands for *regular*, indicates that the student was in good academic standing at the time of sitting for the course's final examination, which means that he had complied with the following minimum requirements: attending 80% of practice-based lessons or lectures, passing at least 50% of term tests, and complying with any other activities scheduled by the chair. *Regular* status lasts two years and enables the student to sit for a final examination which may be written or oral. *L*, which stands for *libre*, indicates that the student has either failed to attain good academic standing or simply chose not to comply with all pertaining requirements to do so. *Libre* (extramural) students must take and pass a written final examination before sitting for the oral exam that will allow them to complete a course. -----

I, Matías Argüello Pitt, National Sworn Translator of English, Professional License No. 952, hereby certify that the foregoing is a true and faithful translation into English of the document written in Spanish which I have had before me.
